---

Acura Radiator Hose | RL Integra TL MDX - 2000 1995 2006 2003

The Acura TL's radiator cap or coolant recovery cap controls the pressure inside of the cooling system. When the pressure in your Acura TL's radiator reaches a higher level, the radiator cap will vent the excess coolant into the coolant reservoir. If the cap is damaged or faulty and isn't venting, this can lead to excess pressure inside of your Acura's cooling system, which can damage the radiator hoses or cause a coolant leak.
