Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information.

ONE IS his beloved. Leaving L.A.'s Parker Center, Shane Scully and his wife, Alexa, agree to meet at home...but Alexa never arrives. Then Shane's called to a crime scene on Mulholland Drive, where the victim, an apparent gang member, has been executed—and left in Alexa's car. Her gun is the likely murder weapon. THE OTHER Is his Nemesis. As Shane desperately tries to find Alexa, his leads point to a feud between two gangsta-rap record companies, both heavily manned by Crips and Bloods. At the center of this war is a ruthless, beautiful Lady Macbeth-like white woman raised in Compton. Married to a multi-millionaire rap mogul, she is known as the White Sister. It's his worst nightmare come true... Shane is no stranger to big trouble, but he's never before been smeared as a "racist cop" or thrown in jail while there's a hit out on him. Much worse is the unknown fate of Alexa, and the fact that in the mysterious White Sister—who holds the clue to a sinister conspiracy—he may have met his match.

Haynes offers the best coverage for cars, trucks, vans, SUVs and motorcycles on the market today. Each manual contains easy to follow step-by-step instructions linked to hundreds of photographs and illustrations. Included in every manual: troubleshooting section to help identify specific problems; tips that give valuable short cuts to make the job easier and eliminate the need for special tools; notes, cautions and warnings for the home mechanic; color spark plug diagnosis and an easy to use index.

Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S. Roth, MBA, CPA, CFP(R), Author of How a Second Grader Beats Wall Street "Jim Dahle has done a lot of thinking about the peculiar financial problems facing physicians, and you, lucky reader, are about to reap the bounty of both his experience and his research." - William J.
