EDIT: A lot of people are asking about grades and percentages.

Technically a F is a 50% or something around there. But in my case (and I'm sure in most engineering schools), a 70% is needed to take

# Download File PDF

the next course in line,  
so unless the 70% is  
obtained, you're  
retaking that course  
even if a D is  
technically passing.
