Reports of cases decided by the Privy Council and the High Court of Judicature, North Western Provinces.

This forty-volume collection comprises all the issues of an early and influential classical periodical, first published between 1810 and 1829.

Although the 1980 United Nations Convention on Contracts for the International Sale of Goods (CISG) is one of the most successful international conventions to date, it remains the case that those involved in the international sale of goods must refer to a multitude of laws. Indeed the CISG itself does not cover all issues relating to international sales contracts, so it must necessarily be supplemented by domestic law. Global Sales and Contract Law provides a truly comparative analysis of domestic laws in over sixty countries so as to deliver a global view of domestic and international sales law. The book reports on the real practice of sales law, taking into account present day problems. Complex questions on the obligations under a sales contract, the

ways in which these are established, as well as the remedies following the breach of obligations, are all discussed. By addressing regional uniform projects, like OHADA, and comparing differences in domestic legal approach where the CISG would not apply, the work goes beyond existing commentaries which tend to focus only on the CISG. The analysis has been based on an unprecedented survey drawn from the world's top fifty companies as well as international traders, lawyers advising international traders, arbitral institutions, arbitrators, and law schools. This work encompasses all aspects of a sale of goods transaction and takes a wide view of sale by including general contract law. The book gives practitioners invaluable insight into judicial trends and possible solutions in different legal systems, whether preparing for litigation or drafting an international contract. Global Sales and Contract Law is the most comprehensive and thorough compilation of legal analysis in the field of the sale of goods and is a reliable source for any practitioner dealing in international commerce.

The FAAT List is not designed to be an authoritative source, merely a handy reference. Inclusion recognizes terminology existence, not legitimacy. Entries known to be obsolete are included because they may

still appear in extant publications and correspondence.

"More than 30 years have elapsed since Robert Schuman's declaration of 9 May 1950 and the signature on 18 April 1951 of the Treaty of Paris establishing the European Coal and Steel Community. The time has come for the European Community to take stock. Both as a unique economic and human experiment, and as a reality endowed with powerful legal instruments, this singular phenomenon needs to be examined from the standpoint of history. The establishment of the Community was completed with the conclusion of the Treaties of Rome creating the European Economic Community and the European Atomic Energy Community. Its institutions have undergone several stages of development, including the merger of the executives, the creation of own resources, the extension of Parliament's budgetary powers and the creation of a Court of Auditors. At the same time the Community was putting into effect the fundamental principles of free movement of goods, persons, services and capital, and developing the common policies which are laid down in the Treaties or which proved necessary in order to attain, in the course of the operation of the common market, one of the objectives of the Community. On two occasions it has been enlarged by the

accession of further European States, first Denmark, Ireland and the United Kingdom, and subsequently Greece. It has also commenced negotiations with a view to the admission of Spain and Portugal. The progress made by the Community is reflected in a vast range of legislation binding on Member States, firms and individuals, and in the body of case-law built up by the Court of Justice in Luxembourg. The Commission wished to provide a work of reference for lawyers which did not assume any familiarity with questions of Community law. It asked eminent specialists in the subject from the various Member States to make individual contributions to Thirty years of Community law so as to trace the development of the Community, summarize the progress achieved in the various sectors and examine the difficulties which the Community has had to face. Each author was allowed the fullest freedom of expression. Neither the Commission nor readers will necessarily share all the points of views expressed, but they will at least have the benefit of a full and frank discussion"--Unedited summary from book cover.
