A major 2007 study of the impact of Home Rule on liberalism and popular radicalism in Britain and Ireland. Eugenio Biagini argues that between 1876 and 1906 the crisis of public conscience caused by the Home Rule debate acted as the main catalyst in the remaking of popular radicalism. This was not only because of Ireland's intrinsic importance but also because the 'Irish cause' came to be identified with democracy, constitutional freedoms and humanitarianism. The related politics of emotionalism did not aid in finding a solution to either the Home Rule or the Ulster problem but it did create a popular culture of human rights based on the conviction that, ultimately, politics should be guided by non-negotiable moral imperatives. Adopting a comparative perspective, this book explores the common ground between Irish and British democracy and makes a significant contribution to the history of human rights, imperialism and Victorian political culture.

When the Nazis came to power and created a racial state in the 1930s, an urgent priority was to identify Jews who had converted to Christianity over the preceding centuries. With the help of church officials, a vast system of conversion and intermarriage records was created in Berlin, the country ' s premier Jewish city. Deborah Hertz ' s discovery of these records, the Judenkartei, was the first step on a long research journey that has led to this compelling book. Hertz begins the book in 1645, when the records begin, and traces generations of German Jewish families for the next two centuries. The book analyzes the statistics and explores letters, diaries, and other materials to understand in a far more nuanced way than ever before why Jews did or did not convert to Protestantism. Focusing on the stories of individual Jews in Berlin, particularly the charismatic salon woman Rahel Levin Varnhagen

and her husband, Karl, a writer and diplomat, Hertz humanizes the stories, sets them in the context of Berlin ' s evolving society, and connects them to the broad sweep of European history.
