The Nigerian condition has been the subject of conversation among writers, policymakers, and market men and women. There is no where the subject is not broached or discussed and often solutions are proffered, from the rational to the mundane. This is to be applauded because a culture of debate is to be preferred to silence as it is a national asset. Indeed, it is the duty of the ruling elite within the state sphere to distil the feedback from the citizenry and turn it into an outcome that is healthy for the polity.

School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on
