For the past two decades ten men from Cornwall's Port Isaac have met on the village quayside every Friday summer evening to sing rousing sea shanties and traditional folk songs for little more than free beer. Then, in March 2010, everything changed when stardom came to this bunch of friends who had sought neither fame nor fortune. Within weeks of a record producer hearing their passionate, harmonic singing, they had a million-pound deal and were booked to appear at Glastonbury. By

the end of that month a world tour was underway and Ealing Films had bought the rights to their story. Their first commercially produced album went gold almost immediately and they have now played live to hundreds of thousands of people, raising the roof everywhere with ballads such as 'The Cadgwith Anthem' and 'South Australia'. The book will tell the full story of how the boat came in for this group of burly middle-aged men, each of whom are or have been fishermen, lifeboatmen and coastguards (as well as builders, artisans, hoteliers and shopkeepers) in their beloved

Port Isaac. Each member of the group has his own story, and individual family histories tell of Cornwall's rugged, harsh landscape and the ever-present danger and bounty of the sea. Few people come into logistics management with knowledge and experience of all aspects of the profession. Some may have worked their way up from driving a vehicle but know little of warehouses, others may find themselves taking responsibility for logistics as part of a wider remit such as operations. A Practical Guide to Logistics aims to equip them with the necessary knowledge to move on to the next stage, with simple non-technical explanations of the options available, and impartial advice on how to choose the right option for their business. It is also an

excellent primer for students studying logistics for the first time, on BSc or MSc courses, as well as practitioners on professional training courses. A Practical Guide to Logistics is a straightforward guide taking readers through all aspects of this fascinating industry, covering packaging, transportation, warehousing and exporting and importing of goods. There is a real need for this basic knowledge, both for practitioners starting out in the industry or more experienced practitioners who may have gaps in their knowledge. The book examines

weekends. But when Darren and Jodie move into the house on the corner, they don't follow the rules. They blast music at all hours, begin an unsightly renovation, and run a used-car business from their yard. It doesn't take long for an all-out war to start brewing. Then, early one Saturday, a horrific death shocks the street. As police search for witnesses, accusations start flying--and everyone has something to hide.
