Revised edition of the authors' SAP SuccessFactors employee central, [2016]

This IBM® Redbooks publication introduces and describes the IBM Elastic Storage® Server 3000 (ESS 3000) as a scalable, high-performance data and file management solution. The solution is built on proven IBM Spectrum® Scale technology, formerly IBM General Parallel File System (IBM GPFS). IBM Elastic Storage System 3000 is an all-Flash array platform.

# Download Free Sap Ess Guide

This storage platform uses NVMe-attached drives in ESS 3000 to provide significant performance improvements as compared to SAS-attached flash drives. This book provides a technical overview of the ESS 3000 solution and helps you to plan the installation of the environment. We also explain the use cases where we believe it fits best. Our goal is to position this book as the starting point document for customers that would use ESS 3000 as part of their IBM Spectrum Scale setups. This book is targeted toward technical professionals (consultants, technical support staff, IT Architects, and IT Specialists) who are responsible for delivering cost-effective storage solutions with ESS 3000.

Self-service for employees and

# Download Free Sap Ess Guide

managers has received widespread acceptance and is now being used by companies throughout the world. If you are working on or considering an SAP ERP HCM Employee Self-Service (ESS) and Manager Self-Service (MSS) implementation, this is the resource you need. This book is written for HR and IT professionals, project managers, and consultants. It covers the project cycle from design to implementation, beginning with the details of why self-service is important to organizations, how it fits into a service delivery strategy, and how to approach developing a business case. An overview of ESS and MSS is provided along with details on the technical implementation, including the homepage framework, OADP (Object and Data Provider), and the underlying configuration. Self-service

# Download Free Sap Ess Guide

fundamentals are also explained, including installation and setup, and a full review of the standard components available in SAP ESS and MSS Business Packages is included. More advanced topics, including delegation, workflow, and security authorizations are covered, and a case study and lessons-learned section provides real-world insights from past experiences.

SAP HANA on IBM® POWER® is an established HANA solution with which customers can run HANA-based analytic and business applications on a flexible IBM Power based infrastructure. IT assets, such as servers, storage, and skills and operation procedures, can easily be used and reused instead of enforcing more investment into dedicated SAP HANA only appliances. In this

# Download Free Sap Ess Guide

scenario, IBM Spectrum™ Scale as the underlying block storage and files system adds further benefits to this solution stack to take advantage of scale effects, higher availability, simplification, and performance. With the IBM Elastic Storage™ Server (ESS) based on IBM Spectrum Scale™, RAID capabilities are added to the file system. By using the intelligent internal logic of the IBM Spectrum Scale RAID code, reasonable performance and significant disk failure recovery improvements are achieved. This IBM Redpaper™ publication focuses on the benefits and advantages of implementing a HANA solution on top of IBM Spectrum Scale storage file system. This paper is intended to help experienced administrators and IT specialists to plan and set up an IBM

# Download Free Sap Ess Guide

Spectrum Scale cluster and configure an ESS for SAP HANA workloads. It provides important tips and bestpreferred practices about how to manage IBM Spectrum Scale's availability and performance. If you are familiar with ESS, IBM Spectrum Scale, and IBM Spectrum Scale RAID, and you need only the pertinent documentation about how to configure a IBM Spectrum Scale cluster with an ESS for SAP HANA, see Chapter 5, "IBM Spectrum Scale customization for HANA" on page 25. Before reading this IBM Redpaper publication, you should be familiar with the basic concepts of IBM Spectrum Scale and IBM Spectrum Scale RAID. This IBM Redpaper publication can be helpful for architects and specialists who are planning an SAP HANA on POWER deployment with the IBM Spectrum
