101 Advisor Solutions: A Financial Advisor's Guide to Strategies that Educate, Motivate and Inspire is a must read for any financial advisor looking for tools, techniques, strategies and real world solutions to conquering common challenges! This book is designed to help you build a better business...one solution at a time.

Every day, rising companies stumble because management hired available people, not the right people. Then after making one too many of these mistakes, especially in key positions, the once-promising business that had the world to offer to its consumers is no longer. Because they didn't learn: Hiring. Is. King. In Hire Smart from the

Start, author and entrepreneur Dave Carvajal distills lessons learned from 20 years of both successful and poor hiring decisions as he built and staffed two enormously successful Internet startups and helped firms like Tumblr, Buddy Media, and Shutterstock land the talent they needed to reach their greatest potential. Whether you manage a restaurant, a tech firm, or an Internet startup, the proven formula in this book will help you in every aspect of hiring, training, and keeping the right employees in the right positions. Learn how to find candidates whose values and working style fit your business. Discover the 5 types of applicants you should never, ever hire. Find out how to motivate otherwise-happily-employed-elsewhere applicants to take a chance on your vision. If you hire smart from

the start, you will accelerate your business's success and it will flourish beyond what you thought possible!

This new book, by the original developer of the BACnet standards, explains how BACnet's protocols manage all basic building functions in a seamless, integrated way. BACnet is a data communication protocol for building automation and control systems, developed within ASHRAE in cooperation with ANSI and the ISO. This book explains how BACnet works with all major control systems--including those made by Honeywell, Siemens, and Johnson Controls--to manage everything from

Download Free Smartstart Wiring Guide

heating to ventilation to lighting to fire control and alarm systems. BACnet is used today throughout the world for commercial and institutional buildings with complex mechanical and electrical systems. Contractors, architects, building systems engineers, and facilities managers must all be cognizant of BACnet and its applications. With a real 'seat at the table,' you'll find it easier to understand the intent and use of each of the data sharing techniques, controller requirements, and opportunities for interoperability between different manufacturers' controllers and systems. Highlights include: * A review of the history of BACnet and its essential features, including the object model, data links, network technologies, and BACnet system configurations; * Comprehensive
