NOW AN ABC TELEVISION DRAMA STARRING DAVID WENHAM AND REBEL WILSON You Wouldn't Be Dead For Quids is a series of adventures involving Les Norton, a big red-headed country boy from Queensland who is forced to move on the big smoke when things get a little hot for him in his hometown. Working as a bouncer at an illegal casino up at the Cross, Les gets to meet some fascinating characters who make up the seamier side of one of the most exciting cities in the world-gamblers, conmen, bookies, bouncers, hookers and hitmen, who ply their respective trades from the golden sands of Bondi to the tainted gutters of King's Cross. . . usually on the wrong side of the law. As raw as a greyhound's dinner, Les is nevertheless a top bloke-fond of a drink, loves a laugh and he's handy with his fists. And, just quietly, he's a bit of a ladies man too. . . Les Norton is undoubtedly an Australian cult figure.

In the growing field of address research, Spanish emerges as one of the most complex Indo European languages. Firstly, it presents second person variation in its nominal, pronominal, and verbal systems. Moreover, several Spanish varieties have more than two address variants, which compete and mix in intricate ways. Forms of Address in the Spanish of the Americas showcases current research into this unique linguistic situation, by presenting the original research of twelve scholars from a variety of theoretical and methodological perspectives. The articles cover diachronic change and regional variation, pragmatics, dialect contact, attitudes, and identity. The contributions are contextualized through an introduction and the responses of three established experts, while a conclusion delineates a research agenda for the future. This collection in English is meant to reach scholars beyond the confines of Hispanic linguistics. It should be of interest to Romance linguists and specialists on second person variation across languages.

The world's first tragedy of le mi, even after the pressure to treat the abuse of the President with a laugh, from the upcoming bankruptcy and debt-laden hard choices, she began her long maid road! Severe cold dug a good big hole, holding a line waiting for le millet this pig jumped in, but did not expect to kill a way to bite gold, disrupted his plan, and he fought for le millet. Le mi feel, her life suddenly seems to be playing online games, before and after attacking two big BOSS, OMG, she is her own good? Not the "thing" they're fighting over, okay? Is there any freedom? Do you still let people play happily? agghh

In 1973, Henry Kissinger shared the Nobel Peace Prize for the secret negotiations that led to the Agreement on Ending the War and Restoring Peace in Vietnam. Nixon famously declared the 1973 agreement to be "peace with honor"; America was disengaging, yet South Vietnam still stood to fight its own war. Kissinger promptly moved to seal up his personal records of the negotiations, arguing that they are private, not government, records, and that he will only allow them to be unsealed after his death. No Peace, No Honor deploys extraordinary documentary bombshells, including a complete North Vietnamese account of the secret talks, to blow the lid off the true story of the peace process. Neither Nixon and Kissinger's critics, nor their defenders, have guessed at the full truth: the entire peace negotiation was a sham. Nixon did not plan to exit Vietnam, but he knew that in order to continue bombing without a congressional cutoff, he would need a fig leaf. Kissinger negotiated a deal that he and Nixon expected the North to violate. Ironically, their long-maintained spin on what happened next is partially true: only Watergate stopped America from sending the bombers back in. This revelatory book has many other surprises. Berman produces new evidence that finally proves a long-suspected connection between candidate Nixon in 1968 and the South Vietnamese government. He tells the full story of Operation Duck Hook, a large-scale offensive planned by Nixon as early as 1969 that would have widened the war even to the point of bombing civilian food supplies. He reveals transcripts of candidate George McGovern's attempts to negotiate his own October surprise for 1972, and a seriocomic plan by the CIA to overthrow South Vietnam's President Thieu even as late as 1975. Throughout, with page-turning dialogue provided by official transcriptions and notes, Berman reveals the step-by-step betrayal of South Vietnam that

started with a short-circuited negotiations loop, and ended with double-talk, false promises, and outright abandonment. Berman draws on hundreds of declassified documents, including the notes of Kissinger's aides, phone taps of the Nixon campaign in 1968, and McGovern's own transcripts of his negotiations with North Vietnam. He has been able to double- and triple-check North Vietnamese accounts against American notes of meetings, as well as previously released bits of the record. He has interviewed many key players, including high-level South Vietnamese officials. This definitive account forever and completely rewrites the final chapter of the Vietnam war. Henry Kissinger's Nobel Prize was won at the cost of America's honor.
